## CALF WEANAID<sup>®</sup> WITH PROTEXIN<sup>®</sup> AND MONECO<sup>®</sup>

VITAMIN AND MINERAL SUPPLEMENT WITH PROTEXIN<sup>®</sup> AND MONECO<sup>®</sup>

FOR MILK-FED AND WEANER CALVES.

**PRESENTATION:** A cream to pale brown coloured free flowing powder.

**ACTIVE INGREDIENTS:** Each 20 g dose contains:

VITAMIN A	10,000 I.U.	BETAINE	40 mg
VITAMIN D <sub>3</sub>	2,000 I.U.	ZINC	60 mg
VITAMIN E	40 I.U.	COPPER	10 mg
VITAMIN B <sub>1</sub>	5 mg	IRON	60 mg
VITAMIN B <sub>2</sub>	6 mg	SODIUM	600 mg
VITAMIN B <sub>6</sub>	10 mg	POTASSIUM	1,000 mg
VITAMIN B <sub>12</sub>	0.02 mg	MANGANESE	30 mg
VITAMIN K	1 mg	COBALT	1.2 mg
d-CALCIUM PANTOTHENATE	20 mg	IODINE	0.4 mg
NICOTINAMIDE	40 mg	MAGNESIUM	800 mg
FOLIC ACID	1 mg	SELENIUM	0.2 mg
BIOTIN	0.1 mg	PROTEXIN <sup>®</sup>	180 million CFU*
		MONENSIN SODIUM as MONECO <sup>®</sup>	25 mg

(These levels of active constituents are minimum levels)

\*CFU – colony forming units (number of bacteria)

**PROPERTIES:** KEYMIX<sup>®</sup> CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup> and MONECO<sup>®</sup> is a unique product, which continues the colostrum advantage by minimising setbacks to growth often associated with the step-down in nutrient intake when colostrum feeding ends at 3-4 days of age. CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup> & MONECO<sup>®</sup> has 12 vitamins and 10 minerals to boost the levels provided by whole milk or milk replacer to be comparable to colostrum. The ability of the calf to synthesise some vitamins and minerals in the rumen is limited initially, however, develops rapidly when solid feed is introduced into the ration. PROTEXIN<sup>®</sup> is included to maximise growth rates and protect calves from scour-inducing bacteria including *E. coli*, Salmonella and Aeromonas. The beneficial bacteria in PROTEXIN<sup>®</sup> help calves to quickly establish a healthy population of gut microflora, which, in turn, helps protect them from overgrowth of harmful strains, as well as aiding in digestive efficiency and improving utilisation of feed. PROTEXIN<sup>®</sup> helps improve growth rates, feed conversion and enhances health naturally.

PROTEXIN<sup>®</sup> is non-hormonal, environmentally safe, residue free and has a nil withholding period. MONECO<sup>®</sup> benefits in prevention of coccidiosis by improving a natural immuno-responsiveness to coccidia, and increased weight gains in calves.

CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup> and MONECO<sup>®</sup> may be mixed into hard feed for six months after weaning to continue its effect on growth, digestive function and feed utilisation.

**DOSAGE & ADMINISTRATION:** Mix 20 g per calf per day added to whole milk or milk replacer or mix with feed. Use strictly according to directions and for animals intended. The enclosed scoop holds 30 g of CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup> & MONECO<sup>®</sup>.

**CAUTION:** Do not allow dogs, horses or other equines access to feeds containing monensin sodium. Ingestion by dogs and horses has been fatal. Do not exceed the recommended levels.

**MEAT WITHHOLDING PERIOD: NIL**

**TRADE ADVICE:** EXPORT SLAUGHTER INTERVAL (ESI): This product does not have an ESI established. For advice on the ESI, contact the manufacturer on (02) 9672 7944 before using this product.

**POISONS SCHEDULE:** S6 (Due to inclusion of selenium)

**REGULATORY STATUS:** EXEMPT

**PACK SIZES:** 10 kg (contains 500 x 20 g doses)
