(These levels of active constituents are minimum levels)

NUTRITIONAL INFORMATION:

PROTEIN	Min. 20 %
FAT	Min. 5 %
FIBRE	Min. 9 %
CALCIUM (Ca)	Min. 4% - Max. 6 %
PHOSPHORUS (P)	Min. 1.5% - Max. 2.5 %
SALT	NIL
MAXIMUM FLUORINE (F)	0.025 %
Average Digestible Energy	11 MJ/kg

PROPERTIES:

(Australia)

SOUTER'S™ LIVAMOL® is a palatable blend of proteins, energy and polyunsaturated oil formulated to improve coat condition and general appearance of all stock, including stud and show animals. **LIVAMOL®** is especially appropriate for young, aged and convalescing animals recovering from disease or injury. **LIVAMOL®** is a concentrated nutritious conditioning feed additive which is palatable to all animals and birds. Selected omega-3 fatty acids and high oil protein meals have a positive effect on coat and skin appearance. Coat colour may also be enhanced and enriched by supplementation with minerals such as zinc and copper. **LIVAMOL®** has been formulated to supplement daily intakes of protein, fatty acids, vitamins and minerals including calcium and phosphorus.

(New Zealand)

SOUTER'S™ LIVAMOL® is a nutritional supplement consisting of mixed protein meals, oil, molasses, vitamins and minerals for horses, pigs, poultry, goats, sheep and cattle.

DOSAGE AND ADMINISTRATION:

(Australia & New Zealand)

LIVAMOL® may be mixed with, offered by free access alongside other feed or may be used in formulated rations, preferably under the direction of a nutritionist or veterinarian. A standard coffee mug (300 mL) holds 200 g **LIVAMOL®**.
