

CALCIPLEX BONE & JOINT™

A HIGHLY PALATABLE CALCIUM AND PHOSPHORUS SUPPLEMENT WITH VITAMINS A AND D, AND TRACE-MINERALS SUITABLE FOR HORSES ON HIGH GRAIN DIETS, GROWING AND BREEDING HORSES AND ALL WORKING HORSES.

PRESENTATION: An off-white vanilla flavoured powder.

ACTIVE INGREDIENTS: Each 70 g dose contains:

CALCIUM	18.3 g	VITAMIN A (Retinol)	25,000 I.U.
PHOSPHORUS	5.0 g	VITAMIN D (Cholecalciferol)	5,000 I.U.
MAGNESIUM	3.5 g	COPPER	200 mg
ZINC	200 mg	MANGANESE	200 mg

(CALCIUM: PHOSPHORUS RATIO 3.6 : 1)

PROPERTIES: FARNAM® CALCIPLEX BONE & JOINT™ is formulated to provide a source of calcium, phosphorus and magnesium, combined with vitamins A and D and essential trace-minerals to assist the uptake, regulation and balance of these vital bone and joint cartilage structural components. An adequate intake of calcium, phosphorus and magnesium is required for bone development, maintenance of skeletal strength and the 'bone bank' of stored calcium, as well as optimum muscle function and to meet increased demands during late pregnancy and lactation in mares. The health, structural function, optimum flexibility and resilience of joint cartilage to 'wear and tear' process is maintained when an adequate intake of vitamin A, copper, manganese and zinc are included in the diet of growing and working horses. While vitamin D is responsible for assimilation and utilisation of calcium and phosphorus, it also promotes growth and mineralisation of the bones, including bones of the foetus.

The above features make **CALCIPLEX BONE & JOINT™** the supplement of choice for balancing rations of all horses. For the best results, use **CALCIPLEX BONE & JOINT™** every day, together with **VITAM® HEALTH & VITALITY™**.

DOSAGE AND ADMINISTRATION:

Mix **CALCIPLEX BONE & JOINT™** into wet or dry feeds, preferably giving half the dose in each of the morning and evening feeds. One level scoop holds approximately 35 g. The following dose rate provides 50-100 % of a horse's daily requirement relative to its age, breeding stage or demand during training.

	50 %	100 %
HORSES IN WORK:	70 g	to 140 g
SPELLING HORSES:	35 g	to 70 g
PREGNANT MARES:	70 g	to 140 g
LACTATING MARES:	70 g	to 140 g
DRY MARES:	35 g	to 70 g
YEARLINGS:	70 g	to 140 g
WEANLINGS:	70 g	to 140 g

MEAT WITHHOLDING PERIOD: NIL (Australia)

POISONS SCHEDULE: NOT APPLICABLE (Australia)

REGULATORY STATUS:
Australia: EXEMPT
New Zealand: EXEMPT

PACK SIZES: 3 kg (contains 42 x 70 g doses)
 15 kg (contains 214 x 70 g doses)
