## CALF WEANAID<sup>®</sup> WITH PROTEXIN<sup>®</sup>

SOLUBLE VITAMINS, MINERALS, ELECTROLYTES, ENERGY WITH PROTEXIN<sup>®</sup> MULTI-STRAIN PROBIOTIC SUPPLEMENT FOR ADDITION TO WHOLE MILK OR MILK REPLACER FOR CALVES.

**PRESENTATION:** A pale yellow coloured free flowing powder soluble in milk and/or milk replacer, or for mixing with feed for weaner calves.

**ACTIVE INGREDIENTS:** Each 20 g dose contains:

VITAMIN A	10,000 I.U.
VITAMIN D <sub>3</sub>	2,000 I.U.
VITAMIN E	40 I.U.
VITAMIN B <sub>1</sub>	5 mg
VITAMIN B <sub>2</sub>	6 mg
VITAMIN B <sub>6</sub>	10 mg
VITAMIN B <sub>12</sub>	0.02 mg
VITAMIN K	1 mg
d-CALCIUM PANTOTHENATE	20 mg
NICOTINAMIDE	40 mg
FOLIC ACID	1 mg
BIOTIN	0.1 mg

Note: CFU – colony forming units (number of bacteria).

BETAINE		43 mg
POTASSIUM	Electrolytes	1000 mg
MAGNESIUM		800 mg
SODIUM		600 mg
ZINC	Trace Minerals	60 mg
IRON		60 mg
MANGANESE		30 mg
COPPER		10 mg
COBALT		1.2 mg
IODINE		0.4 mg
SELENIUM		0.2 mg
PROTEXIN <sup>®</sup>		180 million CFU

### PROPERTIES:

#### (Australia)

**KEYMIX<sup>®</sup> CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup>** is a unique product, which continues the colostrum advantage by minimising setbacks to growth often associated with the step-down in nutrient intake when colostrum feeding ends at 3-4 days of age. **CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup>** has 12 vitamins and 10 minerals to boost the levels provided by whole milk or milk replacer to be comparable to colostrum. Although colostrum is rich in vitamins and minerals, calves have a minimal store of these nutrients at birth. The ability of the calf to synthesise some vitamins and minerals in the rumen is limited initially, however, develops rapidly when solid feed is introduced into the ration.

**PROTEXIN<sup>®</sup>** is a blend of live viable microbes, which benefits the calf by improving the intestinal balance. These microbes are safe, non-toxic and residue-free. Everyday use of Protexin helps maintain a balanced digestive system, thus optimising digestion of feed and enhancing health naturally.

#### Indications for use:

- An aid during periods of intestinal dysfunction, including treatment and control of scouring and diarrhoea, exclusion and suppression of pathogens such as *E. Coli*, *Salmonella* and *Aeromonas* spp.
- Post-antibiotic therapy for the re-establishment of gut microflora following antibiotic use.
- Improve weight gains and feed conversion in growing cattle.
- Aids in the establishment of gastrointestinal microflora of physiologically immature animals, e.g. day old calves.

#### (New Zealand)

**KEYMIX<sup>®</sup> CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup>** contains 12 vitamins and 10 minerals in conjunction with **PROTEXIN<sup>®</sup>** to aid in the transition from colostrum to milk and finally to feed. Vitamins and minerals are especially required by young animals to meet elevated nutrient demands of growth, helping to keep a correct fluid level in the body.

**PROTEXIN<sup>®</sup>** is a blend of live viable microbes, which benefits the calf by improving the intestinal balance. These microbes are safe, non-toxic and residue free. Everyday use of **PROTEXIN<sup>®</sup>** helps maintain a balanced digestive system, thus optimising digestion of feed and enhancing health naturally.

#### Indications for use:

- An aid during periods of intestinal dysfunction.
- Post-antibiotic therapy for the re-establishment of gut microflora following antibiotic use.
- Improve weight gains and feed conversion in growing cattle.
- Aids in the establishment of gastrointestinal microflora of physiologically immature animals, e.g. day old calves.

### DOSAGE & ADMINISTRATION:

**RESTRAINT:** PROTEXIN<sup>®</sup> should not be used in conjunction with Penicillins, Cephalosporins, Tetracyclines, Avoparcin, Gentomycin, Lincomycin, Streptomycin, Tiamulin or Tylosin, but may be used immediately following these antibiotics.

Mix thoroughly 20 g per calf per day into the whole milk or milk replacer or mix 10 kg per tonne of feed. Use strictly according to directions and for the animals intended. The enclosed scoop holds 30 g CALF WEANAID<sup>®</sup> with PROTEXIN<sup>®</sup>.

**WITHHOLDING PERIOD:** NIL (Australia)

**POISONS SCHEDULE:** S6 (POISON) (Due to the inclusion of selenium) (Australia)

**REGULATORY STATUS:** Australia: EXEMPT  
New Zealand: EXEMPT

**PACK SIZES:** 10 kg (contains 500 x 20 g doses)
