DAIRY-AID[®]

CONCENTRATED DUSTLESS VITAMINS & MINERALS FOR HIGH MILK PRODUCING DAIRY COWS, GOATS AND SHEEP

Please note feed additives maybe added (conditions apply) including Flaveco, Moneco, ProN8ure. See separate datasheets for details.

PRESENTATION: Dustless, reddish-brown free flowing powder.

ACTIVE CONSTITUENTS: Each 5 g contains:

		NRC [#]			NRC [#]
VITAMIN A	52,000 I.U.	100%	COBALT	10 mg	100%
VITAMIN D ₃	4,000 I.U.	25%	COPPER	160 mg	100%
VITAMIN E	120 I.U.	50%	IRON	200 mg	25%
IODINE	3.2 mg	35%	MANGANESE	320 mg	50%
SELENIUM	5 mg	100%	ZINC	1,000 mg	100%

(These levels of active constituents are minimal levels).

[#] Percentage of the National Research Council (NRC) 1989 requirements for a 500 kg dairy cow producing greater than 25 L of milk per day.

PROPERTIES: KEYMIX[®] DAIRY-AID[™] is a concentrated formulation containing all essential trace-minerals with high level of zinc, and fat soluble vitamins A, D₃, and E for lactating cows, goats and sheep.

Vitamins and trace-minerals are beneficial to high producing animals to improve health, maintain vitality and appetite. High producing animals for production of milk, growth and efficient reproduction especially require vitamins and trace-minerals. They improve feed nutrient value of the total ration by supplementing those nutrients, which are missing or low in pastures, commonly used grain, protein meals and hay or silage. Deficiency symptoms are usually in the form of sub-optimal production, reduced fertility and herd health problems. Obviously, a nutritionally balanced ration will help ensure an optimum feed conversion, build health and maximise production and fertility.

DOSE AND ADMINISTRATION: Mix DAIRY-AID[™] at a rate as shown below:

COWS: 5.0 g/head/day

GOATS: 0.5 g/head/day

SHEEP: 0.5 g/head/day

DAIRY-AID[™] may be fed continuously before and during lactation.

WITHHOLDING PERIODS: MEAT & MILK – NIL

TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): ESI not required

POISONS SCHEDULE: S6 (due to the inclusion of selenium).

REGULATORY STATUS: EXEMPT

PACK SIZE: 25 kg (contains 5,000 x 5.0 g cow doses or 50,000 x 0.5 g goat or sheep doses)
