## PRO(N8)URE® GUT BALANCER

*Blend of live viable microbes including 7X lactobacilli (ProN8ure multi-strain probiotic), 2X bacillus strains, dual prebiotics for healthy gut function by managing intestinal microbial balance in foals and adult horses.*

**PRESENTATION:** Free-flowing powder.

**ACTIVE CONSTITUENTS:** Each gram contains 300 Million CFU as *Lactobacillus acidophilus*, *Lactobacillus delbrueckii* subspecies *bulgaricus*, *Lactobacillus plantarum*, *Lactobacillus rhamnosus*; *Bifidobacterium bifidum*; *Enterococcus faecium*; *Streptococcus thermophilus*. *Bacillus subtilis* and *Bacillus licheniformis*.

Other ingredient: Dual prebiotics

**Why a Probiotic?** Probiotics are live microbials which benefit the host animal by improving the intestinal microbial balance essential for a healthy digestive tract. Everyday use helps maintain a balanced digestive system, optimising digestion of feed and enhancing your animal's health, naturally. These microbes are safe, non-toxic and residue free.

**Why a Prebiotic?:** Prebiotics are food ingredients that reach the large intestine unaffected by the digestive process and feed the natural good bacteria within the gut helping them to grow and flourish. Prebiotics, particularly resistant starch, lowers the pH, reduces ammonia, phenols and other potentially harmful compounds and helps to keep the digestive tract healthy.

### **DOSAGE AND ADMINISTRATION:**

#### **FOR ORAL ADMINISTRATION:**

Level scoop holds 25 grams.

Start with 1 scoop morning and night for the first week-monitor manure consistency

2<sup>nd</sup> week 2 scoops morning and night-monitor manure consistency

3<sup>rd</sup> week 3 scoops morning and night-monitor manure consistency

4<sup>th</sup> week 4 scoops morning and night-monitor manure consistency

When a normal consistency of manure is reached, reduce by 1 scoop morning and night for several days.

If consistency of manure remains constant, slowly reduce the dose over several days or a week.

If at any point, there is a reduction in consistency of the manure, either maintain or increase the dose for as long as necessary.

Bio-Sorb® can be used in conjunction with ProN8ure® Gut Balancer to support healthy gastrointestinal tract in horses.

**WITHHOLDING PERIODS: MEAT: NIL; MILK: NIL; EGGS: NIL**

**TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): ESI not required**

**REGULATORY STATUS:** Australia: END (Excluded nutritional or digestive product).

New Zealand: Exempt

**PACK SIZE:** 2 kg, 5 kg, 10 kg
