Keymix® BOAR & SOW™

A BALANCED VITAMIN AND MINERAL PREMIX FOR ADDITION TO PIG BREEDER FEEDS.

PRESENTATION: Free-flowing easily dispersible powder for addition to total ration at feed mixing.

ACTIVE CONSTITUENTS: Each kg contains:

VITAMIN A (4.67 million I.U.)	1,400 mg	NIACIN	6,700 mg
VITAMIN D_3 (0.93 million I.U.)	23 mg	BIOTIN	167 mg
VITAMIN E	40 g	COBALT	333 mg
THIAMINE HCL (Vit. B_1)	933 mg	COPPER	7,333 mg
RIBOFLAVIN (Vit. B_2)	1,785 mg	IODINE	333 mg
PYRIDOXINE (Vit. B_6	1,000 mg	IRON	50 g
CYANOCOBALAMIN (Vit. B_{12})	10 mg	MANGANESE	33 g
MENADIONE (VITAMIN K_3)	667 mg	SELENIUM	133 mg
d-CALCIUM PANTOTHENATE	8,165 mg	ZINC	67 g
FOLIC ACID	333 mg	BETAINE	67 g

These levels are minimum levels.

PROPERTIES: It is obvious that the swine producer is interested in maximum performance and minimising of the risk of vitamin and mineral deficiencies, which may occur because of variations in ingredient quality, environment, health and genetics on individual farms. Therefore, a balanced diet containing adequate levels of vitamins and minerals is essential for general health, growth, reproduction and lactation performance, feed efficiency and disease resistance.

KEYMIX® BOAR & SOW™ premix contains a balanced level of vitamins and minerals that will maximise feed nutrient value and utilisation to optimise performance in breeder pigs. In addition, BOAR & SOW premix includes biotin as increased biotin levels combined with zinc and other trace-minerals are necessary for the maintenance of strong healthy hooves in housed pigs, along with zinc, to ensure quality of the hoof.

For the best results, BOAR & SOW premix should be added to breeder rations containing balanced levels of protein, energy, salt, calcium and phosphorus.

DOSAGE AND ADMINISTRATION:

Mix thoroughly at a rate of 1.5 kg premix per tonne of feed. To ensure thorough mixing, add BOAR & SOW premix early in the mixing process, increasing the batch size to the required amount with other ingredients.

MEAT WITHHOLDING PERIOD: NIL.

TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): ESI not required.

POISONS SCHEDULE: S6 (due to inclusion of selenium).

REGULATORY STATUS: EXEMPT.

PACK SIZE: 25 kg (sufficient for 17 tonnes of feed).

Australia-Wide Toll Free: 1800 801 201
