LIVAMOL® OIL

A SCIENTIFICALLY FORMULATED BLEND OF OMEGA 3 FATTY ACIDS, ANTIOXIDANTS AND BENEFICIAL BACTERIA TO SUPPORT GOOD HEALTH AND FERTILITY

PRESENTATION: Oily liquid

ACTIVE INGREDIENTS: Each 1L contains:

OMEGA 3 - DHA & EPA	80,000 mg
DL-ALPHA TOCOPHERYL ACETATE	150,000 IU
PROBIOTICS*	1.8×10^{10} CFU

**Bacillus subtilis*, *Bacillus amyloliquefaciens* and *Bacillus licheniformis*

PROPERTIES: **LIVAMOL OIL** is a blend of Omega 3 fatty acids (including EPA and DHA), antioxidants and specifically selected probiotic strains.

The omega 3 in **LIVAMOL OIL** is derived from marine oil. Omega 3 oils are important for cell wall integrity and the immune system and eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), that are found in highest quantities in marine oils, are more effectively used by the body than non-marine derived Omega 3 (linolenic acid) which needs to be first converted by the body to EPA and DHA before being utilised by the horse.

The selected probiotic strains in **LIVAMOL OIL** help reduce pathogen load by promoting the growth of beneficial microbes. The combination of three *Bacillus* strains supports the reduction of harmful bacteria and contributes to a healthier gastrointestinal tract.

LIVAMOL OIL can be fed to all classes of horses including foals, breeding horses and performance horses.

LIVAMOL OIL can be added to the feed of:

- Show Horses
- Horses being prepared for sales
- Race & Performance horses in intense work
- Horses on high-grain diets
- Horses with joint inflammation and can be used in conjunction with Equine Joint Support F2
- Horses with allergies and skin conditions and assist in muscle metabolism.
- Broodmares, including late pregnancy mares- particularly those with a history of reproductive challenges.
- Stallions to support reproductive function.

DOSAGE AND ADMINISTRATION:

MIX WELL BEFORE USE

Start feeding 50ml per 500kg horse, added to feed once per day.

After 7 days, dose can be increased to twice daily (50ml in morning and night feed for 500kg horse).

This formulation does not contain any banned substances or contravene the rules of racing, but the rules prohibiting the use of pre-race supplements should be followed if required by local racing authorities.

PACK SIZES: 1L, 5L, 20L.
